(4) The Returning Officer shall show the voting papers, if requested to do so to the candidates or their authorised representatives, at the time of scrutiny and counting of votes.

14. Upon the completion of the counting and after the result has been declared by him, the Returning Officer shall seal up the voting papers and all other documents relating to the election and shall retain the same for a period of six months and thereafter cause them to be destroyed.

9. With reference to the Proceedings of the Commissioner for Government Examinations, Madras, Memorandum C. No. 482-D/34, dated 18th July 1934, published on page 378 of Part I-B of the *Fort St. George Gazette*, dated 24th July 1934, and with reference to the syllabus in Typewriting—Higher Grade (Oral and Practical portions only), the following list of duplicating machines that have been approved for use in connexion with the Government Technical Examinations is published for the general information of the heads of commercial institutions in the Presidency and in the Indian States and of the candidates offering themselves for the examination :—

1 Multar, hand feed.
2 R.S.R. No. 14, hand feed (Old R.S.R. No. 11).
3 Ronco No. 3, hand feed.
4 Ronco No. 100, self feeding.
5 Ellams D-1, hand feed.
6 Ellams K, self feeding.
7 Rota Rotary No. 8, self feeding.

11 Ronco No. 10, self feeding.
12 Multiprint Rotary Duplicator.
13 Ellams Duplicator D-16 Model.
14 Copygraph Duplicator.

10. The knowledge of the duplicating machines mentioned above with regard to the cutting of stencil and the taking of copies on them will be demanded of candidates with effect from the examination of January 1935. They are, therefore, warned to pay adequate attention to this part of the syllabus. Candidates are expected to bring with them when they attend the Oral and Practical examinations, any one of the above duplicating machines in addition to the particular kind of typewriter which they used while answering the written test.

11 *Seats and accommodation for the candidates*—(a) Candidates will be permitted to bring with them for their use at the examination hall, their own tables, chairs or stools, if they choose; provided they take care to see that by so doing, they do not give room to the slightest disturbance being caused in the examination hall

(b) The candidates will be allowed to take their seats in the examination hall five minutes before the appointed hour for giving out the question paper and supplied with the necessary paper for answering and get their machines ready for work with papers inserted in them and to have their register numbers at the right hand corner of their answer papers and the particular kind of Typewriter they use at the left hand corner, typed before the question paper is given to them.

12. Candidates are strictly told not to write anything on the question paper itself. Calculations or any other points they wish to note must be written on one of the blank sheets supplied to them and such sheets including the carbon papers should be left on the table. Further, candidates are strictly warned not to take carbon copies more than what is required of them in the question paper.

13. The candidates will, if necessary, be examined in batches but at least every four candidates for the Lower grade, at least every two candidates for the Higher grade, must have one machine among them.

14. Managers and Instructors of institutions concerned are expected to see that their pupils are supplied with Typewriting machines in proper working order.

15. Managers and Instructors will be allowed into the examination hall in the intervals between the various batches to inspect the machines and to remedy any defects. They should take care to see that they do not remain in the examination hall while the question paper is being distributed to the candidates or the examination hall is while their pupils are answering the question papers.

16 If, however, a candidate reports to the Superintendent that his machine has gone out of order, the Superintendent will intimate this to the Manager or Instructor, if he is waiting outside on the premises, and will permit such Manager or Instructor to enter the hall (though the candidates may be at work) to inspect the machine and to remedy the defect or to supply another machine. It must, however, be clearly understood that the Superintendent incurs no responsibility in this matter; his action will be purely ex gratia, the whole responsibility resting on the candidate and the Manager or Instructor.

17. A similar concession will be allowed in the case of a private candidate, if he has someone outside who is willing to inspect the machine and put it right, etc.

18. *No extra time will be given to candidates to compensate for loss of time while the machines are out of order and to have put right.*

In the Mofussil.

19 Heads of Institutions who are desirous that their pupils should be examined in batches and private candidates who desire to be similarly examined should make

the necessary arrangements with the Chief Superintendent concerned *four* days before the examination and furnish him with all the necessary information as to the number of candidates and machines and the time at which each batch will attend on the day fixed for the examination.

At Madras.

20. Lower Grade—Candidate's Hall Ticket.—Tickets of admission specifying the particular batch (first or second and so forth in which the candidates need to appear) will be issued on Monday, the 23rd October 1939, between 11 a.m. and 5 p.m. at the Office of the Commissioner for Government Examinations, Old College, Nungambakkam. These tickets should be shown at the entrance to the examination hall. Candidates who produce tickets will be admitted to the batch specified in the tickets. Candidates who do not provide themselves with tickets cannot claim to be admitted to any particular batch. They will be admitted only, if spare seats are available in the hall, i.e., after seats are reserved for those who have registered their names and obtained tickets for the batch. Candidates who do not hold tickets will accordingly have to wait at the entrance to the examination hall from the hour of commencement of the first batch and take their chance of being provided with seats in the first or in any subsequent batch. To avoid all inconvenience and possible disappointment, heads of institutions who are desirous that their pupils should be examined in batches and private candidates who desire to be similarly examined are particularly requested to call at the office on Monday, the 23rd October 1939, with all the necessary information as to the number and name of candidates that will attend at the particular batch on the day fixed for the examination and obtain tickets of admission accordingly. *No tickets are on any account to be sent by post whether to heads of institutions or to private candidates.*

21. Candidates that have such a separate machine and that do not want to be examined in batches are expected to appear for their examination with the *Third* batch for the Lower grade. But this does not preclude them from registering their names for that batch and obtaining tickets accordingly.

22. Candidates for the *Higher* grade may appear for the first or second batch at their option and *no tickets accordingly are issued for this grade.*

23. Instructor's Hall Ticket.—Managers or Instructors of Institutions and other persons who wish to be allowed into the examination hall in the intervals between the examinations of the various batches to inspect the machines and formally any defects, are requested to call at the office on Monday, the 23rd October 1939, and have their names registered. Tickets of admission specifying their names, the institutions to which they belong, etc., will be issued to them and these should be produced at the entrance to the examination hall.

Both at Madras and in the Mofussil.

Attention is particularly drawn to the following rules.

24. No candidate will be allowed to enter the examination hall unless he wears a clean and decent dress, and in all cases where good manners require it, a suitable covering for the head, nor will he be allowed to keep his shoes on unless they are shoes of English pattern, and socks and trousers are worn also.

25. No candidate suffering from any contagious disease will be admitted to the examination hall.

26. With a view to prove their identity to the Chief Superintendent of the examination, candidates will be required to produce, on the first day of their appearance for the examination, an identification certificate from a responsible person, preferably a Government official. Candidates appearing from recognized or approved schools should also obtain a similar certificate from the head of the institution concerned.

The following form of identification certificate is prescribed :—

1. This is to certify that the bearer..... is known to me and that he is a bona fide candidate appearing for the Government Technical Examinations in ..... (subjects with grades have to be specified).

2. The signature of the candidate affixed below was taken in my presence.

Signature of the candidate.

Date,

Signature with designation or address .....

Date .....

27. Candidates are requested to note carefully whether their names have been printed in the nominal list and satisfy themselves whether particulars printed tally with those as given by them in their applications for admission in the examinations, so that any alteration with regard to their initials, name or abbreviation of community or any other correction that may appear necessary might be pointed out by them in writing to the Chief Superintendent.

28. *No candidate will, on any account, be allowed to take into the examination hall slates, books, or portion of a book, ruled sheets, manuscripts or papers of any kind.* Any candidate detected in the violation of this rule or detected in speaking to or in any way communicating with or copying from each other and in communicating with any other person outside the examination hall or having recourse to any unfair practices will be sent out of the hall forthwith, and his conduct reported to the Commissioner for disciplinary action. The use of mathematical instruments for drawing figures or ruling lines will, however, be allowed.

29. Strict silence should be maintained in the examination hall.

30. Candidates are expected to take their seats in the examination hall at least five minutes before the time fixed for giving out the question papers. No candidate will be allowed to quit the examination hall on any day until the expiration of half an hour from the time fixed for the commencement of the examination and candidates arriving after the expiration of that half hour will not be admitted.

31. No candidate will be allowed to re-enter the examination hall during the hours of examination after once quitting it, nor to leave the hall without finally giving up his answer papers.

32. Candidates are forbidden to note down the answer to any question on the question paper itself; they will not be allowed to take any papers, except their question papers, out of the examination hall.

33. Candidates are forbidden to tear up paper, or to throw ink or papers on the floor. All 'spoilt' copies, etc., should be left on the desk where the candidate has been writing.

34. Candidates may have to write their answers on both sides of the paper supplied to them and they will receive the necessary instruction on this point in the examination hall from the Chief Superintendent of the examinations.

35. No candidate will be allowed to exceed the time assigned to each paper.

36. As soon as candidates have finished writing their answers and wish to give up their answer papers, or at the end of the period prescribed for each particular part of the examination, each should rise from his seat and remain standing until one of the Superintendents has gone up to him and has received his answer paper from him. Any candidate wishing to ask any question of the Superintendent will pursue the same course but will on no account leave his seat.

37. The answer papers should be stitched or pinned together at the upper left hand corner, and the whole folded into two, lengthwise (not crosswise into four). The register number, the place of examination and also (in the case of the examinations in Typewriting, the name and Model number of the Typewriter used) should be written out clearly by the candidates on the top right-hand side of the first page of the answer paper, as well as on the top of the paper after it is folded.

(*N.B.*—(1) Candidates are strictly forbidden to write or type their names on the answer papers.

(2) Candidates should distinctly understand that failure to furnish even any one of these particulars may involve the rejecting or ruining their answer papers—particularly any actual fear may up at least the candidate's register number and name of centre will not be entered.)

38. Candidates whose names are not in the printed list forwarded to the Chief Superintendent must submit a written declaration through the Chief Superintendent giving full particulars in regard to themselves *including their address*, and furnish such evidence as may be possible of their having applied for admission to the examinations at the proper time and paid the prescribed fees. The answer papers of such candidates will not be valued unless it is clear that the omission of their names is due to no fault of theirs.

39. Candidates choosing to change their place of examination without previous permission, or appearing at any centre other than the one at which they ought to have appeared according to the notice published in the Gazette, must not expect to have their papers valued or their results published. In all cases where permission has been granted, the memorandum or letter permitting the change should be produced for the satisfaction of the Superintendents.

40. *Any candidate who does not behave properly towards the Chief and Assistant Superintendents of the examinations or is suspected of having had recourse to malpractices of any kind in connexion with the examination or whose answer papers contain objectionable matter, is liable to have his examination invalidated and also to be debarred from appearing again for any of the examinations under the control of the Commissioner for such term of years as the Commissioner may think fit: or if the Commissioner is not satisfied for any reason whatever as to the trustworthiness of his results, he may be required to undergo a re-examination at some future date to be fixed by the Commissioner in any one or more of the subjects of the examination for which he appeared, his success or failure being determined on the results of such re-examination.*

41. Candidates are forbidden to communicate with the Examiners, should they do so their answer papers will not be valued and further their conduct will be reported to the Commissioner for any action that he may deem fit.

42. No information can be furnished in regard to the results of a candidate in any subject or in regard to the marks obtained by him or in regard to the particular section or subdivision in which he may have failed. The names of successful candidates in each subject arranged in two classes, First and Second, will be published in the *Fort St. George Gazette*. The pass-list for each grade of a subject as published in the Gazette is complete and final. Applications from or on behalf of unsuccessful candidates asking for information as to the cause of failure or for revaluation of the answer papers will not be attended to. No revaluation of answer papers is permissible.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender make a security deposit of Rs. 160 (rupees ninety only) in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental form for the due fulfilment of the contract. This security deposit together with the earnest money and the amount withheld according to clause 68 of the standard preliminary specification of the Madras Detailed Standard Specifications shall be retained as security for the due fulfilment of the contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to attend the Division office on the date fixed in the written intimation from such office or to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money.

5. The tenderer shall examine closely the Madras Detailed Standard Specifications and also the Standard Preliminary Specification contained therein, and sign the Divisional Office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender unit rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days, in the office of the Executive Engineer, River Conservancy Division.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification". Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself about the quality and availability of materials. The names of quarries, hills, etc., wherefrom certain materials to be obtained from the quarries or other sources defined, shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in this tender notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination at the source of materials defined in the Descriptive Specification Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) Test, inspection and rejection of defective materials and work.
(2) Carriage.
(3) Construction plant.
(4) Water and lighting.
(5) Cleaning up during progress and for delivery.
(6) Accidents.
(7) Delays.
(8) Particulars of payment.
(9) Defects and shrinkage, etc., after completion (proviso 23).

(10) Contractor's risk and insurance (clause 50)

(11.) Suspension of works by the contractor (subclause 61).

The contractor should closely peruse all the specifical on clauses which govern the rates which he is tendering.

6. A schedule of quantities accompanies this tender notice. It shall be distinctly understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions deductions, or additions at the discretion of the Executive Engineer, River Conservancy Division, or as set forth in the conditions of contract. The tenderer will, however, base his lump-sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas, and in case of three places The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract, such lump sum agreeing with the total amount of Schedule A This schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or corrections of figures. Corrections, where unavoidable, should be made by crossing out, initialling, dating and rewriting.

10 Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognized; and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The source from which certain particular materials shall be obtained by the contractor is given at the end of the schedule accompanying the tender form. Tenderers shall quote their price for finished work accordingly. Notwithstanding any subsequent change in the market value for these materials, the charge to the contractor will remain as originally entered in the written contract. No cartage or incidental charges will be borne by Government in connexion with this supply.

13. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time, as will be indicated by the Executive Engineer's certificates of the value of work done, will be required Date of commencement of the programme will be the date on which the site (or premises) is handed over to the contractor.

Period after date of commencement.	Percentage of work completed (based on contract lump-sum amount).
One month	20
Two months	60
Three months	100

14. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorising others to receive payment on the contractor's behalf.

15. If further necessary information is required, the Executive Engineer of the Division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

16. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.
